

Need a neurologist soon?

See a board-certified neurologist within days, via video appointment.

“Empathetic care means understanding and validating a person's experiences and feelings while providing compassionate and individualized treatment.

— Thomas Berk, MD, Medical Director

Conditions we treat:

Our expert care team will evaluate, diagnose and treat these chronic neurological conditions.

Migraine & Headache

Sleep Disorders

Epilepsy

Concussion

Tremor

Stroke Recovery

Other & Undiagnosed

We can refer patients to local providers for labs, scans or in-person procedures as needed.

How Neura Health Works:

1

Refer your patient to set up a Neura Health account at neurahealth.co/sanabenefits

2

Select a video appointment slot and speak with a provider within days

3

Patient begins the journey to relief with the help of a comprehensive care team

Our virtual clinic includes:

Easy access to video visits with a board-certified neurologist **within days, not months.**

2x monthly 1:1 health **coaching sessions** and a **personalized educational curriculum.**

Unlimited online chat with your care team, including your neurologist.

Digital symptom tracker providing **insights** into your triggers and trends.

Real results within 3 months:

45%

Median improvement in level of relief

67%

Median reduction in symptom severity

75%

Median reduction in symptom frequency

95%

of Neura patients give us a 5-star rating
